

English Language Course

SHORT OVERVIEW

This course is specifically designed to equip educators and staff in general with the foundational skills and knowledge needed to effectively communicate in English and (in the case of the teachers) inspire their students to do the same.

Throughout this intensive course, we will focus on the core language skills: speaking, listening, reading and writing. One of the main objectives is make people feel comfortable with the usage of English, feeling more confident and motivated to talk it. In order to make it possible, we will work on the speaking part through oral activities, like collaborative tasks, debates, conversations, presentations...
